# DETERMINE SIZE

## Availables molds

We have some available cutting patterns for jigsaw puzzles, we can also provide custom patterns on your needs

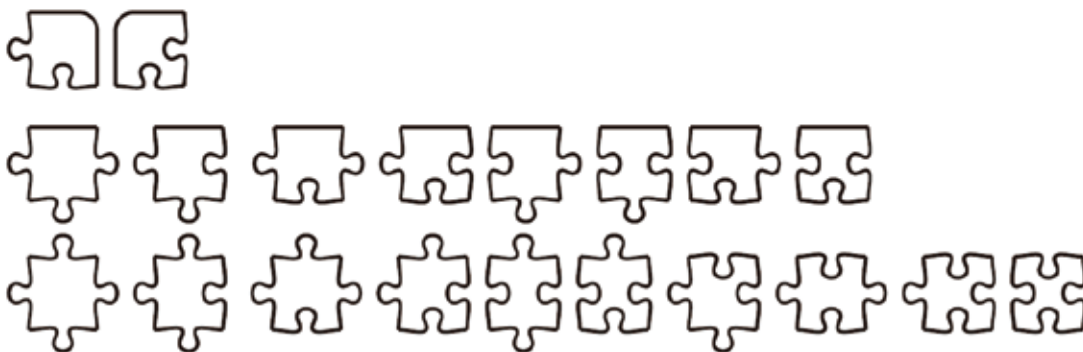

# MORE ABOUT THE CUTTING PATTERN

Basically we have two kind of cutting patterns: 1) one is more challenging with 28 different shapes; 2) less challenging with more randoms

## Difficult challenging Pattern

---

This kind of pattern only has 20~24 different shapes, 2~4 corner shapes, 8 margin shapes, and 10 inside shapes. This means the pieces could be mis-placed in another place espacially when their color is very similar. So this is a difficult pattern suitable for end customers like challenging. The following are examples

## Pattern with more random

---

In this pattern, each pieces is with more random, the puzzle shapes in one area are different with each other. This means when pieces have similar color it's not like to mis-place them. So it's less chanlleging to complete the whole puzzle in this pattern. The following are some picture for reference.

# FREQUENT ASKED QUESTIONS

[www.yomicraft.com](http://www.yomicraft.com)

## What is the cost of shipping?

---

The shipping details are based on the destination and the products

We use express shipping for sample orders by default. For bulk orders, combined shipping methods are usually provided. Please contact our sales specialist for details.

## How long does the shipping take?

---

For samples by express, usually 4~8 days

For bulk orders by sea/air/train, usually 15~35 days

## Can I have proofs of my product?

---

Yes, we offer on screen proof including electronic proof, hard copy proof(digital printed). The typical sample cost for 500/1000 pieces jigsaw puzzle is 150/design, we can offer up to 10 sets for the sample order. The offset printed sample time is about 8~14 days

## How long does the production take?

---

For orders up to 1000 pcs, it takes 15~20 days.

Our production team will evaluate the lead time based on the project details

## What about the missing pieces and the dusts?

---

We have a machine to blow the dust from puzzles which minimize the dust remained, however this doesn't mean there is no dust in the puzzle

It's awful to find missing piece in a puzzle. We have to admit that we can't guarantee there is no missing pieces in our puzzle. However, we guarantee to refund on the puzzle you find missing pieces
